## POLICY MANAGEMENT

CANDEA INDUSTRIAS PLÁSTICAS, S.A.U. whose scope is, "Extrusion and co-extrusion of thermoplastic sheets and rolls. Merchandising of sheets, rolls and plastic injected parts", is a company with more than forty years of experience in the plastic transformation sector. At present, it specialises in the extrusion of plastic sheets and rolls. It has modern co-extrusion lines with the highest technology on the market.

At CANDEA INDUSTRIAS PLÁSTICAS, S.A. we believe that customer satisfaction is the essence of the organisation. Therefore:

- We will respond quickly to customer needs, offering guidance on the type of material, coating and colour required for each application.
- We will do our best to meet and exceed your expectations and requirements.
- We will strive for excellence in our products and services.
- We will focus on improving processes and machinery in order to achieve continuous improvement in energy efficiency.
- We will work towards the elimination (and if not possible the reduction) of pollution caused by our products, throughout their life cycle.
- We will promote the use of recycled materials by our customers.
- We will comply with applicable legal and regulatory requirements.
- We will improve the effectiveness of our management system on an ongoing basis.

This policy management is reviewed annually by the company's direction, at the same time as the review of the quality system. It serves as a reference framework for the establishment of the company's management objectives.
